

Benefit with WinLine

✓ mesonic ERP & CRM systems are built for your success.

An ERP system is a vital component in the IT landscape of any company. Mission-critical data is combined, processed, analyzed and summarized on one central platform. Your ERP solution supplies all the information you need for making important business decisions. The individual modules in the WinLine ERP software package are synchronized together in an integrated environment that lets you automate and model any process in your company, be it in the back office, in manufacturing or in sales. WinLine business software will get things moving in your company.

THE MESONIC PRODUCT LINES

- + Software maintenance included in monthly usage fee
- + Monthly renewable

The flexible ERP and CRM solution with a daily use billing model per user.

The WinLine cloud is the flexible, secure and always available complete package without implementation or maintanence costs. You pay only for the days you actually use WinLine cloud. Billing is made for the exact number of days that a user has logged into the system.

The with a daily use billing model per user.

- + Complete solution for ERP, CRM, PPS
- + Online, location independent access to WinLine
- + Private Cloud: customizable solution
- + Secure data storage in data centers
- + Transparent billing model with pay as you use model

PROGRAM MODULES

FINANCIAL ACCOUNTING

Finances and accounting are at the very core of your company's data processing requirements. WinLine ACC1 provides systematic data entry, control and reporting features involved with revenue generation, inventory movement and performance of services. The core module offered in the WinLine business line has a lot to offer: posting windows for various kinds of transactions, open item management, and a collections management system.

Facts on the mesonic WinLine ACC1

- + Large scope of features in the basic core module
- + Integrated cost accounting
- + Interfaced to WinLine ASSET and ACC2
- + Liquidity analysis
- + Corporate consolidation

ASSET MANAGEMENT

The asset management module is closely integrated with the accounting and cost accounting modules in WinLine. Various kinds of depreciation methods are supported, allowing you to conduct asset management planning, liquidity planning and requisitioning of assets.

Facts on the mesonic WinLine ASSET

- + Full integration with WinLine ACC1
- + Various methods for depreciation
- + Numerous valuation and adjustment posting options

INVENTORY MANAGEMENT, DOCUMENT ENTRY

Inventory and document generation are the second critical element in your business IT environment. Inventory scheduling, inventory control and all stages in the purchasing and sales process are merged into one integrated system. Core functions for order entry, document management, pricing mechanisms and customer and vendor master data, along with inventory control and purchasing are included in the WinLine ACC2 module.

Facts on the mesonic WinLine ACC2

- + Flexible order entry
- + Product master data
- + Multiple warehouse management
- + Material requirements planning
- + Product lot and serial number management

PRODUCTION / PLANNING PPS

The WinLine PPS module promotes reduced product turnaround times, manages resource availability and capacity, analyses inventory requirements and efficiently schedules the use of company resources. Integration with the other WinLine ERP modules lets you stay upto-date on employee and financial resource values.

Facts on the mesonic WinLine PPS

- + Production planning and control
- + Resource and capacity management
- + Integration to WinLine ACC2 and ACC1

CUSTOMER RELATIONSHIP MANAGEMENT

Customer retention is an important goal in every company. CRM systems let you measure and evaluate customer satisfaction. The WinLine CRM module streamlines customer and vendor-oriented processes in marketing, sales, and purchasing areas.

Facts on the mesonic WinLine CRM

- + Carry out sales and marketing campaigns
- + Workflow engine for individual company process flows
- + Complete integration with all WinLine ERP modules
